UNIQUE FEATURES

The BFR Combat Boot Features potentiated technology designed to mitigate soft tissue and skeletal damage to the feet by deflecting blast from certain common types of anti-personnel landmines.

The protection system in the BFR Combat Boot, unique in design and application of materials, is incorporated into the upper as well as the sole of the boot. Unlike standard issue combat boots, the upper of the BFR Combat Boot is embedded with its sole is reinforced with protective sole plate, heel plug and mutipal layer of specially woven protective fabric.

Lightweight dual density direct soling makes the BFR Combat Boot extremely comfortable to wear with compromising performance.

BOOT SPECIFICATION:
